

STAMPEDE

Race to Time Zero

Stampede Capital Limited

19th Annual Report

2013-14

Dear Member,

We want to share how Stampede evolved from pure Research & Development firm in to fastest growing disruptive technology company in the world.

Who we are

Stampede was started by Meenavalli Venkat, who is a strong believer and backer of disruptive technologies. Company started its R&D operations with a team of Maths / Statistics / Computer Programmers with a vision to build a global trading platform, trading multiple asset classes at Speed of Light.

We work continuously on all the major research published by top universities from Wharton, Cambridge, MIT AI LABS, Cornell and Stanford.

Stampede R&D division is merged with Brilliant Securities and got listed in BSE by end of 2011.

The vision of Stampede is
“RACE TO TIME ZERO”.

Our Sector Analysis

Global connectivity shrinking the globe into a village without boundaries, created a new digital economies where the high speed network billionaires control and dictate the global cash flows.

Last
10 years

Last
50 years

Global economy cash flows where controlled by industrialists and industrialized nations.

Last
100 years

The money flow in the economy was controlled by the landlords.

He who executes the transactions at the Speed of Light controls the future digital economy!

Stampede core products are developed and aiming at 2 disruptive technology sectors.

1. Automation of Knowledge Work

2. Cloud Computing

Automation of Knowledge Work

Global financial sector contributes 50% of the knowledge work force employment. Roughly 230+ million of knowledge workers or 9% of the global work force.

Automation of Knowledge Work is ranked second to Mobile Internet by McKinsey report out of 12 disruptive technologies.

McKinsey estimates \$ 9trillion size of economic value to be impacted in next 10years.

Stampede architecture of Automation of Knowledge

Stampede uses 3 types of artificial intelligence for Automation of Knowledge Work.

1. *Conventional AI (Rule based)*
2. *Computational AI (Empirical based)*
3. *Complex Event Processing (Real Time based)*

McKinsey Report

Twelve potentially economically disruptive technologies

	Mobile Internet	Increasingly inexpensive and capable mobile computing devices and Internet connectivity
	Automation of knowledge work	Intelligent software systems that can perform knowledge work tasks involving unstructured commands and subtle judgments
	The Internet of Things	Networks of low-cost sensors and actuators for data collection, monitoring, decision making, and process optimization
	Cloud technology	Use of computer hardware and software resources delivered over a network or the Internet, often as a service
	Advanced robotics	Increasingly capable robots with enhanced senses, dexterity, and intelligence used to automate tasks or augment humans
	Autonomous and near-autonomous vehicles	Vehicles that can navigate and operate with reduced or no human intervention
	Next-generation genomics	Fast, low-cost gene sequencing, advanced big data analytics, and synthetic biology ("writing" DNA)
	Energy storage	Devices or systems that store energy for later use, including batteries
	3D printing	Additive manufacturing techniques to create objects by printing layers of material based on digital models
	Advanced materials	Materials designed to have superior characteristics (e.g., strength, weight, conductivity) or functionality
	Advanced oil and gas exploration and recovery	Exploration and recovery techniques that make extraction of unconventional oil and gas economical
	Renewable energy	Generation of electricity from renewable sources with reduced harmful climate impact

Stampede's Core "Automation of Knowledge" Products

AI Charts

Automated machines reads 1000's of charts in Real-time / Multiple Time Frames / Multiple Indicators using neural networks, decisions are made on Tick-by-Tick basis.

OMS - Order Management Servers

Stampede OMS uses In-Memory database for Order Routing / execution integrated with artificial business intelligence, completely removes the need of physical databases. Normal ORMS requires packets to be sent to operating system and RDBMS, when packets come back, there is a lag of 120 ms to 200 ms by the time OS processes and sends it back.

Stampede In-memory database with business intelligence reduces the time to 2 micro seconds.

EMM - Electronic Market Making

Manual Traders / Jobbers, intelligence is completely automated to provide faster liquidity to markets as well as making the markets. It is impossible for human traders to calculate and reprice futures, options using Black Scholes models in dynamic tic-by-tick world.

Combining the power of computation speed, Bayesian Conditional Probabilities, Markov process (In-Memory) Stampede Automation of Knowledge Work platform is one of the fastest artificial intelligent platform where repricing of calls, puts, futures along with Vol surface is done in micro seconds. This creates more efficient depth of liquidity.

High Computation Power (SPP - Stampede Parallel Process)

Using clusters of GPUs, currently Stampede's own algorithmic computation power can processes 200 F&O stocks [5 Bids, 5 Asks X Calls and Puts]. Computation Matrix in less than 20 micro seconds. If same Matrix has to be run by Intel I7 processor, we need roughly 20,000 processors to compute the same Matrix. It helps Stampede to build a cost effective high speed trading platform across the global exchanges.

Stampede currently integrated its platform with NSE and SGX. Stampede is one of the few organizations in the world using Automation of Knowledge Work, with the power of Computation (Processing Power), Bayesian Conditional Probabilities to create the trade flow execution in less than 2 micro seconds.

Speed, scope, and economic value at stake of 12 potentially economically disruptive technologies

	Illustrative rates of technology improvement and diffusion	Illustrative groups, products, and resources that could be impacted ¹	Illustrative pools of economic value that could be impacted ¹
 Mobile Internet	\$5 million vs. \$400² Price of the fastest supercomputer in 1975 vs. that of an iPhone 4 today, equal in performance (MFLOPS) 6x Growth in sales of smartphones and tablets since launch of iPhone in 2007	4.3 billion People remaining to be connected to the Internet, potentially through mobile Internet 1 billion Transaction and interaction workers, nearly 40% of global workforce	\$1.7 trillion GDP related to the Internet \$25 trillion Interaction and transaction worker employment costs, 70% of global employment costs
 Automation of knowledge work	100x Increase in computing power from IBM's Deep Blue (chess champion in 1997) to Watson (Jeopardy winner in 2011) 400+ million Increase in number of users of intelligent digital assistants like Siri and Google Now in past 5 years	230+ million Knowledge workers, 9% of global workforce 1.1 billion Smartphone users, with potential to use automated digital assistance apps	\$9+ trillion Knowledge worker employment costs, 27% of global employment costs
 The Internet of Things	300% Increase in connected machine-to-machine devices over past 5 years 80–90% Price decline in MEMS (microelectromechanical systems) sensors in past 5 years	1 trillion Things that could be connected to the Internet across industries such as manufacturing, health care, and mining 100 million Global machine to machine (M2M) device connections across sectors like transportation, security, health care, and utilities	\$36 trillion Operating costs of key affected industries (manufacturing, health care, and mining)
 Cloud technology	18 months Time to double server performance per dollar 3x Monthly cost of owning a server vs. renting in the cloud	2 billion Global users of cloud-based email services like Gmail, Yahoo, and Hotmail 80% North American institutions hosting or planning to host critical applications on the cloud	\$1.7 trillion GDP related to the Internet \$3 trillion Enterprise IT spend
 Advanced robotics	75–85% Lower price for Baxter ³ than a typical industrial robot 170% Growth in sales of industrial robots, 2009–11	320 million Manufacturing workers, 12% of global workforce 250 million Annual major surgeries	\$6 trillion Manufacturing worker employment costs, 19% of global employment costs \$2–3 trillion Cost of major surgeries
 Autonomous and near-autonomous vehicles	7 Miles driven by top-performing driverless car in 2004 DARPA Grand Challenge along a 150-mile route 1,540 Miles cumulatively driven by cars competing in 2005 Grand Challenge 300,000+ Miles driven by Google's autonomous cars with only 1 accident (which was human-caused)	1 billion Cars and trucks globally 450,000 Civilian, military, and general aviation aircraft in the world	\$4 trillion Automobile industry revenue \$155 billion Revenue from sales of civilian, military, and general aviation aircraft
 Next-generation genomics	10 months Time to double sequencing speed per dollar 100x Increase in acreage of genetically modified crops, 1996–2012	26 million Annual deaths from cancer, cardiovascular disease, or type 2 diabetes 2.5 billion People employed in agriculture	\$6.5 trillion Global health-care costs \$1.1 trillion Global value of wheat, rice, maize, soy, and barley
 Energy storage	40% Price decline for a lithium-ion battery pack in an electric vehicle since 2009	1 billion Cars and trucks globally 1.2 billion People without access to electricity	\$2.5 trillion Revenue from global consumption of gasoline and diesel \$100 billion Estimated value of electricity for households currently without access
 3D printing	90% Lower price for a home 3D printer vs. 4 years ago 4x Increase in additive manufacturing revenue in past 10 years	320 million Manufacturing workers, 12% of global workforce 8 billion Annual number of toys manufactured globally	\$11 trillion Global manufacturing GDP \$85 billion Revenue from global toy sales
 Advanced materials	\$1,000 vs. \$50 Difference in price of 1 gram of nanotubes over 10 years 115x Strength-to-weight ratio of carbon nanotubes vs. steel	7.6 million tons Annual global silicon consumption 45,000 metric tons Annual global carbon fiber consumption	\$1.2 trillion Revenue from global semiconductor sales \$4 billion Revenue from global carbon fiber sales
 Advanced oil and gas exploration and recovery	3x Increase in efficiency of US gas wells, 2007–11 2x Increase in efficiency of US oil wells, 2007–11	22 billion Barrels of oil equivalent in natural gas produced globally 30 billion Barrels of crude oil produced globally	\$800 billion Revenue from global sales of natural gas \$3.4 trillion Revenue from global sales of crude oil
 Renewable energy	85% Lower price for a solar photovoltaic cell per watt since 2000 19x Growth in solar photovoltaic and wind generation capacity since 2000	21,000 TWh Annual global electricity consumption 13 billion tons Annual CO ₂ emissions from electricity generation, more than from all cars, trucks, and planes	\$3.5 trillion Value of global electricity consumption \$80 billion Value of global carbon market transactions

Cloud Computing

Ranked 4th in 12 economically disruptive technologies by McKinsey with potential economic impact of \$3 trillion in next 10 years. Stampede's DMA (Direct Market Access) technology is co-located with exchanges and accessed through cloud using Thin Clients. Stampede DMA cloud platform helps Institutions, Private Bankers, Hedge Funds to reduce their TCO (Total Cost of Ownership) help them to trade at the Speed of Light.

Stampede Cloud Solutions:

DPI-Dynamic Portfolio Insurance - Stampede Dynamic portfolio insurance is an enhanced version of Modern portfolio theory (MPT) of Harry Markowitz.

TIM - Tracking Index Model - Stampede TIM (Tracking index model) tracks the error minimization of major index as a return enhancement and to outperform the index returns

Guaranteed VWAP Cloud - For Emerging market Exchanges to global large Exchanges liquidity is the key across the multiple asset classes. Stampede's own smart order routing (SOR) algorithm helps in crossing the BID/ASK spreads published across multiple Exchanges. Liquidity Algorithms include TWAP, VWAP, Shark, Implementation Short Fall and Market on close.

Risk Cloud

Creating Value By Modeling RISK.

Modeling RISK = Modeling Cash Flow.

We, having understood the Risk Parameters, at Stampede Modeled the High- End Calculation of Credit Risk, Operational Risk, Third Party Risk and Cash Flow Risk. Our Cloud Services are highly disciplined Automated Risk Management Systems, that insulate the investment process from inherent elements of risk, apart from providing the following in house audit functionalities.

- Using Trade Blotter functionality for audit tasks and risk management
- Benchmarks/Analytics to know current status of operations
- Pre-defined machine control limits that keep track of Net Open Positions (NOP)
- Limited Capital Allocation
- Centralized web interface including gross, net positions and real-time P&L
- Algorithm track quality control limits
- Applied Martingale and Anti-Martingale for position sizing strategies
- Pro-active Risk Management utilizing very tight stop losses

Stampede's own Stochastic Differential Equation Cloud Platform

The mother formula of all derivative markets in modern finance is $ds = \mu s dt + \sigma s dz$

Stampede logic wrapper sits on top of the mother algorithm and addresses the jumps (discontinuous time). Stampede addresses the jumps by incorporating Poisson distribution, Variance Gamma and Time distribution.

Thanks to two decades of regulatory reform and technology advances, firms such as Virtu and Getco supplanted human traders as the main providers of prices on stock and commodity exchanges around the world. Business has been good enough that Vincent Viola and Douglas Cifu, Virtu's founder and chief executive officer, were able to buy the Florida Panthers professional hockey team last year.

"These are companies that show they are a solid, profitable, longstanding business and that there's investor demand to be a part of it," Kevin McPartland, head of market structure and research at Greenwich Associates in Stamford, Connecticut, said by phone.

"If we think back to 2008 and 2009, we never would have expected to see these companies go public, and doing so makes their financial statements available and open," McPartland said.

Current Research & Development

1. Techno Wealth Management Platform
2. BitCoin
3. IdleComputing.com

1. Techno Wealth Management Platform

Wealth management is a trillion \$\$\$ industry. Large private banks create “Run of the Mill Products” for Client Portfolio Management, where transparency of risk is not shared with the clients.

Stampede Portfolio Optimization and Distribution models combine the Speed, Processing Power and Trading in microseconds .

Taking the best of the models (MPT, CAPM, APT), Our Math team created models for Beta / Covariance / Neutralization / Transaction Costs / Tangent Risk Reward for Portfolio Optimization using CVAR.

Time Value of Money

Money has time value. In financial world, all models are assumed that Interest is compounded continuously “ e^{rt} ”.

Edge

The architecture of trading the Assets in microseconds will help, Stampede wealth management platform to trade the optimized portfolios in continuous time of microseconds.

Alpha

When Assets are traded in continuous time of microseconds, the Return of the Assets follow Normal Distribution (Gaussian). Stampede is currently working to launch Alternate Investment Fund (AIF) in India and Relative Value Hedge fund for global markets.

High Frequency Trading Like Buying Into First Class, Says FINRA Enforcement Chief

- by Megan Leonhardt in Advisor Intelligence, Apr 25, 2014

Benefitting from faster access to the markets is akin to buying a first-class plane ticket, and doesn't sound unfair, said the top cop at Wall Street regulator FINRA.

Speaking on a panel at a conference sponsored by the Practising Law Institute Friday in New York, J. Bradley Bennett, the chief of enforcement at FINRA, was reacting to a question on high-frequency trading and a discussion of Michael Lewis' recent book *Flash Boys*.

Bennett was on a panel with the enforcement heads of the SEC, the Consumer Financial Protection Bureau and the Dept. of Justice. Bennett pointed out the focus of Lewis' book was on the possible preferential access these traders have and that "their pipes may be faster."

He compared high frequency trading to buying a first-class ticket on an airline, saying these passengers are paying for the benefit of getting on and off the plane first. "Is there anything unfair about that? Doesn't sound like it to me." (updated with full quote below)

Bennett also noted that the entire market structure has shifted dramatically. Post World War II, a stock was held, on average, for 4 years. Last year, that dropped to 2.8 seconds, he said.

Bennett spent two decades as an attorney defending financial advisors and financial services companies before joining Wall Street's regulatory agency in 2011. He oversees a staff of some 300.

FINRA identified HFT as a regulatory priority in 2014, focusing on "abusive algorithms" that threatened the integrity of the market. But some critics go further, and claim faster access to the exchanges as well as receiving priority data feeds lets these firms act on information faster than others, which is akin to front running.

"Obviously it's been a topic in the news," SEC's head of enforcement Andrew Ceresney told attendees. "It's an area we've been focused on for a period of time," he added, noting the SEC has several ongoing cases around high-frequency trading. Bennett's comments, tweeted out by WealthManagement.com, launched a spirited debate on Twitter over the issue.

- 2. BitCoin
- 3. IdleComputing.com

2. BitCoin

At Stampede, we are true believers of BitCoin efficiency and its potential impact to the global economy. Unique ledger system and no double transaction spending makes BitCoin uniquely poised for alternative payment system across the global Internet.

Stampede currently manages pool mining in more than 10 digital currencies. Stampede, through Cloud Mining and Hash Power Management is helping some of the global BitCoin miners. Stampede cloud Hash power is more than 100 Tera Hashes and we are hoping to build a grid to cross 10 Peta Hashes processing power by end of 2014.

We are enhancing our research to build a Micro Payment & Processing System and Peer to Peer lending and borrowing system using BitCoin architecture.

Bitcoin VC Investment This Year Already 30% Higher Than 2013's Total.

The amount of venture capital raised by bitcoin startups this year has already surpassed the total amount raised in 2013 by more than \$27m. So far in 2014, \$113.2m has flowed into bitcoin businesses, which is 29% greater than the total amount for last year, which stands at \$88m. In 2012, bitcoin startups raised just \$2.1m, according to CoinDesk statistics.

Electronic Market Making Industry Snapshot

Some Typical \$ Numbers for Stock Market Making

Assume

- One cent bid-ask spread (thus profit per share)
- 3 billion shares per day trading volume
- Market makers involved with two-thirds of trades

Then

- Market makers do 1 billion round-trips per day
- So market makers extract \$10 million per day
- Example – a small firm with 1% market share and 13 employees

Revenue is \$100,000 per day - \$26,000,000/year If fixed costs are 50%, this leaves \$1M per employee.

Example:

Global Electronic Trading Co.

"...buys and sells 15% of all the stocks traded in the U.S."

"...valued at \$1 billion two years ago..."

"...rumored to have earned half...in net profit last year..."

Profit Calculations for Getco

Assumptions

- All of Getco's business is market making
- My earlier assumptions are valid Then:
- Getco trades 450 M shares per day
- 225 M round-trips per day
- \$2.25 M revenue per day
- \$560 M revenue per year
- \$280 M net profit per year

Current Research & Development

1. **Techno Wealth Management Platform**
2. **BitCoin**
3. **IdleComputing.com**

3. IdleComputing.com

Stampede owns Idlecomputing.com, currently Beta version is under testing by more than 7000 users from USA, Indonesia, Singapore, Vietnam etc., Please visit www.idlecomputing.com for complete details.

What made us to design Idlecomputing.com

Looking at the evolution of BitCoin, Stampede math team came up with novel idea to address ground challenges of High Frequency trading. Grand challenges are fundamental problems in high end real time data applications with broader Matrix Calculation and computations whose solutions can be advanced by applying global distributed computer processing Power Grid.

What we do?

We collect computation power in to a grid and sell it to different sectors across the globe using own setup plug-ins of Stampede.

Some of the sectors where we are going to sell the computation power:-

- CRYPTO CURRENCIES
- HIGH FREQUENCY TRADING
- 3D ANIMATION
- CONTROL SYSTEM DESIGNING
- SIGNAL PROCESSING
- BIO INFORMATICS

Future Roadmap

Currently we are deploying the fastest scalable platform using the power of Atomized Computation Power(GPU) which can compute 1064 Grid Matrix in less than 2 microseconds.

Global Adapter Event Communicator is under development for seamless integration of Multiple Exchanges, NDF, Spot FX, Global Currencies, Derivatives Exchanges, Dark Pools, ECN's and MTF Markets.

TBT Data for Ultra Low Latency Integrated CEP Engine, In-memory Database with Dynamic Event Processing and Core Kernel level programming to bring the latency to Nano Seconds.

The full fledged version of Idlecomputing.com will be launched by end of September 2014.

Beta version of BitCoin Micro Payment system is expected to launch by the end of October 2014.

Expected to go live with SGX, CURRNEX, DGCX, HOTSPOT, CME and Global NDF markets before December 2014.

Team Behind Stampede

Meenavalli Venkat, *Founder & Chairman*

Mr. Venkat is the First Generation Techno Entrepreneur, who invests and backs disruptive technologies on internet. He is one of the key architects in defining the early stage of internet roll overs in Wall Street (NASDAQ, Time Warner and Merrill Lynch)

In the year 2000, he invested in the 1st wireless broadband internet company Applagic Broadband Systems in India and merged it with Northgate.

Before Google started Online Ad Network, Venkat pioneered the launch of Online Ad Network Axill.com, which is still the world's top 10 Ad Networks serving >100bn impressions as on date. Venkat is the key force behind Globe7.com, the global VoIP provider spanned across 140 countries.

In 2005, before smart phone penetration, he launched the 1st VoIP, Messenger, Sharing Application Globe7 on PCs which touched the peak of 20million users globally.

He architected largest student information site. BharatStudent.com connected in real-time to more than 70 universities, reaching and delivering real time notifications and results to millions of students as on date.

Looking at new disruptive Cloud Technologies, he funded Meridian Tech Pte., Singapore. Meridian Tech Pte. Limited owns Ziddu.com, which is one of the Top 5 cloud/sharing sites in the world along with Dropbox.com and Box.com.

In 2009, he funded and backed High Frequency Trading, Research and Analytical Firm Stampede, with 20 Mathematicians and Statisticians. With the focus in Automation of knowledge Work / Cloud Computing Stampede evolved as an R&D firm for financial markets. He merged it with Brilliant Securities which is listed in Bombay Stock Exchange. Stampede is building a very high end global infrastructure connecting multiple markets to execute the trades within nano seconds.

He is currently backing one of the largest Bit Coin Mining Operations. Currently he is designing crypto currency mining farms with the help of his dream project IdleComputing.com powered by mathematical algorithms of Stampede.

The young techno entrepreneur is a true believer of disruptive technologies and believes every bit of information block is worth millions of \$\$\$\$. Also true believer of Race to Zero Time.

Team Behind Stampede

Emmanuel Dasi, *Executive Director*

Mr. Dasi, 54 years, has a MSc. in Mathematics, MSc. in Statistics and MCA Computer Science. Over 24 years of experience in the research and he headed the statistical department. Concentrated more on HFT, EMM algorithms and integrated reinforcement learning algorithms on HFT systems. Key architect in implementing state space modeling.

He designed and implemented algorithms for relative value arbitrage based on CAPM and Arbitrage Pricing Theory (APT) for national and international-pairs. Supervising and coordinating trading strategies for the Statistical Arbitrage Models, VWAP and equity and derivative markets.

Gaddi L Murthy, *President*

Key architect in Northgate Technologies Ltd, headed the R&D division, and developed the second largest VoIP product, Globe7, which is globally used by millions of users across 90 countries and worked for many subsidiary companies in UK and Hong Kong & Singapore and also worked as key role in MNC CMM level company.

Key Coordination from scratch level with various teams of Mathematicians, Statisticians, Programmers and also to setup hardware infrastructure and carried extensive research on global markets. Key architect in building ultra-low-latency trading platforms and designed & implemented HFT platforms.

**NOTICE OF ANNUAL GENERAL MEETING**

Notice is hereby given that the 19th Annual General Meeting of the Members of Stampede Capital Limited (**CIN: L67120TG1995PLC020170**) will be held on Monday, the 11th day of August 2014 at 10.30 A M at Kalinga Cultural Trust, Plot No. 1269, Road No.12, Banjara Hills, Hyderabad 500 034 to transact the following business:

ORDINARY BUSINESS**1. ADOPTION OF FINANCIAL STATEMENTS**

To receive, consider and adopt the audited Balance Sheet as at March 31, 2014 and the Audited Statement of Profit and Loss for the year ended as on that date together with the Report of the Auditors and the Board of Directors thereon.

2. APPOINTMENT OF DIRECTOR

To appoint a Director in place of Mr Dasi Emmanuel (DIN 02598270), who retires by rotation and being eligible, offers himself for re-appointment.

3. APPOINTMENT OF AUDITOR

To consider and if thought fit to pass, with or without modification(s), the following resolution as an Ordinary Resolution:

“RESOLVED THAT subject to applicable provisions of Companies Act, 2013 read with Rules made there under M/s. Sarath & Associates, Chartered Accountants (Regn No. 005120S) Hyderabad be and are hereby appointed as Statutory Auditors of the Company for a block of Four (4) years from the conclusion of this Annual General Meeting until the conclusion of the 23rd Annual General Meeting of the Company in the Calendar Year 2018 (subject to ratification by the members at every Annual General Meeting) at a Remuneration as may mutually be agreed upon between the Board of Directors and M/s Sarath & Associates, Chartered Accountants.”

SPECIAL BUSINESS**4. APPOINTMENT OF MR VIVEK KUMAR RATAKONDA (DIN: 02090966) AS AN INDEPENDENT DIRECTOR**

To appoint Mr Vivek Kumar Ratakonda (DIN: 02090966) as an Independent Director and in this regard to consider and if thought fit, to pass, with or without modification(s), the following resolution as an **Ordinary Resolution**:

“RESOLVED THAT pursuant to the provisions of Sections 149, 152 read with Schedule IV and all other applicable provisions of the Companies Act, 2013 and the Companies (Appointment and Qualification of Directors) Rules, 2014 (including any statutory modification(s) or re-enactment thereof for the time being in force) and Clause 49 of the Listing Agreement, Mr Vivek Kumar Ratakonda (DIN: 02090966), who was appointed as a Director liable to retire by rotation and whose term expires at this Annual General Meeting and in respect of whom the Company has received a notice in writing under Section 160 of the Companies Act, 2013 from a member proposing his candidature for the office of Director, be and is hereby appointed as an Independent Director of the Company to hold office for 5 (Five) consecutive years for a term up to the conclusion of the 24th Annual General Meeting of the Company in the calendar year 2019.”

5. APPOINTMENT OF MR. VENKATA SURYA SUBRAHMANYA LAKSHMINARAYANA DRONAMRAJU (DIN 01683611) AS AN INDEPENDENT DIRECTOR

To appoint Mr. Venkata Surya Subrahmanya Lakshminarayana Dronamraju (DIN 01683611) as an Independent Director and in this regard to consider and if thought fit, to pass, with or without modification(s), the following resolution as an **Ordinary Resolution**:

“RESOLVED THAT pursuant to the provisions of Sections 149, 152 read with Schedule IV and all other applicable provisions of the Companies Act, 2013 and the Companies (Appointment and Qualification of Directors) Rules, 2014 (including any statutory modification(s) or re-enactment thereof for the time being in force) and Clause 49 of the Listing Agreement, Mr. Venkata Surya Subrahmanya Lakshminarayana Dronamraju (holding DIN 01683611), who was appointed as a Director liable to retire by rotation and whose term expires at this Annual General Meeting and in respect of whom the Company has received a notice in writing under Section 160 of the Companies Act, 2013 from a member proposing his candidature for the office of Director, be and is hereby appointed as an Independent Director of the Company to hold office for 5 (Five) consecutive years for a term up to the conclusion of the 24th Annual General Meeting of the Company in the calendar year 2019.”

The Company intends to increase the authorized share capital of the company from Rs 25 Crores to Rs 35 Crores. It is, therefore proposed to alter the Memorandum of Association of the Company, pursuant to Sections 13 read with Section 61 of the Companies Act, 2013, to give effect to the said alteration.

Consequent to increase in authorized share capital of the Company, it is necessary to make amendments/ replacements/ alterations in the existing Clause of Memorandum of Association of the Company.

Therefore, it is proposed to make the required amendments/ replacements/alterations in the existing Memorandum of Association of the Company.

The Board recommends the resolutions for approval of the shareholders.

None of the directors and key managerial personnel and their relatives is concerned or interested in the above referred resolution.

ITEM NO-9 & 10: SUB-DIVISION OF SHARES & ALTERATION OF MEMORANDUM OF ASSOCIATION

Currently the Nominal value of the Equity shares of the Company is Rs 10/- per Equity share. The Equity shares of the Company are listed on Bombay Stock Exchange (BSE). It has been proposed to Sub-Divide the Face value of the Equity share of the Company to Re 1/- with an intention to increase the Number of shares available in the hands of Shareholders as for each share, shareholder will get 10 shares. This will have the positive impact on the share in the form of unlocking the potential future value of the Equity shares of the Company.

Consequent to the Sub-Division of Equity shares from Face value of Rs 10/- to Re 1/- a shareholder holding 1 Equity share of Rs 10/- each will be allotted 10 Equity shares of Re 1/- each. The date on which this Sub-Division would become effective, will be decided by the Board of Directors after obtaining the Shareholders approval, which will be notified through the Stock Exchanges.

Shareholders attention is also invited to the fact that in view of the foregoing, the existing Capital clause V in the Memorandum of Association of the Company relating to Authorized Share Capital need to be relevantly amended. Section 61 of the Companies Act 2013 provides for Sub-Division of shares into shares of smaller amount, and section 13 read with section 14 of the Companies Act 2013, provides for amendment of Capital clause of the Memorandum of Association.

The Board recommends the resolution to be passed as ordinary resolution.

None of the directors and key managerial personnel and their relatives is concerned or interested in the above referred resolution.

ITEM NO-11: RAISING OF FURTHER CAPITAL

The resolution contained in the AGM Notice relates to a proposal by the Company to create, offer, issue and allot Securities through further public offerings, preferential allotments, qualified institutions placements, issuance of global depository receipts, american depository receipts and such other Securities in such manner as stated in the resolution. The Company intends to issue Securities for a value of up to Rs 100 Crores [including premium].

Subject to applicable laws and regulations, the Company intends to use the net proceeds of the Issue primarily for capital expenditure, making acquisition(s), investments in subsidiaries, working capital requirements and general corporate purpose.

The Special Resolution also seeks to empower the board of directors to undertake a qualified institutions placement with qualified institutional buyers as defined by SEBI (ICDR) Regulations. The Board of Directors, may in their discretion adopt this mechanism as prescribed under Chapter VIII of the SEBI (ICDR) Regulations for raising the funds for the expansion plans of the company, without the need for fresh approval from the shareholders. In case of an issuance of Securities to qualified institutional buyers, whether or not such investors are existing members of the Company, through a qualified institutions placement under Chapter VIII of the SEBI (ICDR) Regulations, the final price at which the Securities will be offered will be subject to investor response and prevailing market conditions, and computed in accordance with the relevant provisions of Chapter VIII of the SEBI (ICDR) Regulations.

The detailed terms and conditions of the issue as and when made will be determined by the Board of Directors in consultation with the merchant bankers, lead mangers, advisors and other experts in accordance with the applicable provisions of law.

The Special Resolution seeks to give the Board powers to issue Securities in one or more tranche or tranches, at such time or times, at such price or prices and to such person(s) including institutions, incorporated bodies or otherwise as the Board in its absolute discretion deem fit.

The consent of the Shareholders is being sought pursuant to the provisions of Section 62 and Section 42 read with other applicable provisions if any of the Companies Act, 2013 and the rules made thereunder, to the extent notified and in force, and in terms of the provisions of the listing agreement executed by the Company with the Stock Exchanges where the Equity Shares of the Company are listed i.e. Bombay Stock Exchange Limited.

Section 62 of the Companies Act, 2013 provides, inter-alia, that when it is proposed to increase the issued capital of the Company by allotment of further shares, such further shares shall be offered to the existing shareholders of the Company in accordance with the Act unless the shareholders in a general meeting decide otherwise. The special resolution seeks the consent and authorization of the members to the Board to make the proposed issue of Securities and in the event it is decided to issue Securities convertible into Equity Shares, to issue to the holders of such convertible Securities in such manner and such number of Equity Shares on conversion as may be required to be issued in accordance with the terms of the issue.

The Board of Directors believe that the issue of Securities to investors who are/ are not Shareholders of the Company is in the interest of the Company and therefore recommends the resolution for your approval.

None of the directors and key managerial personnel and their relatives is in any way concerned or interested in the above referred Resolutions.

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure and Development:

Over the last 20 years, however, the global trading markets have been characterized by the electronification of trading, development of new asset classes, volume growth and improving technology and speed of communication. The advent of electronic trading venues has changed the traditional trading process for many types of securities in the equity, bond and currency markets. The practice of physical, "open outcry" trading has largely been replaced by electronic trading platforms. This shift, and the resulting increase in speed and reduction in trading costs, has led to significant growth in electronic trading volumes, as implied by growth in the aggregate notional value and number of trades on exchanges around the world. According to the World Federation of Exchanges, the number of equity shares traded electronically grew at a compound annual rate of 13.7% since 2004, from approximately 3.5 billion shares in 2004 to approximately 9.8 billion shares in 2012. In addition, according to the Futures Industry Association, trading of futures and options on exchanges has grown at a compound annual rate of 11.5% since 2004, from 8.9 billion contracts in 2004 to 21.2 billion contracts in 2012, and we believe that a significant portion of this growth has come from the electronification of trading.

Growth in foreign exchange market volumes has also been robust. According to the Bank for International Settlements, the daily average market turnover across foreign exchange instruments in April 2013 was \$5.3 trillion. This rate represents 12.0% compound annual growth from the April 2004 daily average of \$1.9 trillion. Among the various foreign exchange instruments, outright spots and swaps led this growth as turnover in foreign exchange spot transactions more than tripled from \$631 billion in April 2004 to \$2.0 trillion in April 2013 and the daily average turnover of foreign exchange swaps increased from \$954 billion to \$2.2 trillion during the same period.

Stampede core products are developed and aiming at 2 disruptive technology sectors

1. Automation of Knowledge Work
2. Cloud Computing

Automation of Knowledge Work

Global financial sector contributes 50% of the knowledge work force employment. Roughly 230+ million of knowledge workers or 9% of the global work force. Automation of Knowledge Work is ranked second to Mobile Internet by McKinsey report out of 12 disruptive technologies. McKinsey estimates \$ 9trillion size of economic value to be impacted in next 10years.

Stampede architecture of Automation of Knowledge

Stampede uses 3 types of artificial intelligence for Automation of Knowledge Work.

- I. Conventional AI (Rule based)
- II. Computational AI (Empirical based)
- III. Complex Event Processing (Real Time based)

Core Architecture

AI Charts

Automated machines reads 1000's of charts in Real-time / Multiple Time Frames / Multiple Indicators using neural networks, decisions are made on Tick-by-Tick basis.

OMS Order Management Servers

Stampede OMS uses In-Memory database for Order Routing / execution integrated with artificial business intelligence completely removes the need of physical databases. Normal ORMS requires packets to be sent to operating system and

RDBMS, when packets come back, there is a lag of 120 ms to 200 ms by the time OS processes and sends it back. Stampede In-memory database with business intelligence reduces the time to 2 ms.

EMM Electronic Market Making

Manual Traders / Jobbers, intelligence is completely automated to provide faster liquidity to markets as well as making the markets. It is impossible for human traders to calculate and reprice futures, options using Black Scholes models in dynamic tic-by-tick world.

Combining the power of computation speed, Bayesian Conditional Probabilities, Markov process (In-Memory) Stampede Automation of Knowledge Work platform is one of the fastest artificial intelligent platform where repricing of calls, puts, futures along with Vol surface is done in micro seconds. This creates more efficient depth of liquidity.

High Computation Power (SPP Stampede Parallel Process)

Using clusters of GPUs, currently Stampede's own algorithmic computation power can processes 200 F&O stocks [5 Bids, 5 Asks X Calls and Puts]. Computation Matrix in less than 20 micro seconds. If same Matrix has to be run by Intel I7 processor, we need roughly 20,000 processors to compute the same Matrix. It helps Stampede to build a cost effective high speed trading platform across the global exchanges.

Stampede currently integrated its platform with NSE and SGX. Stampede is one of the few organizations in the world using Automation of Knowledge Work, with the power of Computation (Processing Power), Bayesian Conditional Probabilities to create the trade flow execution in less than 2 micro seconds.

Cloud Computing

Stampede's DMA (Direct Market Access) technology is co-located with exchanges and accessed through cloud using Thin Clients. Stampede DMA cloud platform helps Institutions, Private Bankers, Hedge Funds to reduce their TCO (Total Cost of Ownership) help them to trade at the speed of light.

Stampede Cloud Solutions:

- **DPIDynamic Portfolio Insurance**
Stampede Dynamic portfolio insurance is an enhanced version of Modern portfolio theory (MPT) of Harry Markowitz
- **TIMTracking Index Model**
Stampede TIM (Tracking index model) tracks the error minimization of major index as a return enhancement and to outperform the index returns
- **Guaranteed VWAP Cloud**
For Emerging market Exchanges to global large Exchanges liquidity is the key across the multiple asset classes.

Stampede's own smart order routing (SOR) algorithm helps in crossing the BID/ASK spreads published across multiple Exchanges. Liquidity Algorithms include TWAP, VWAP, Shark, Implementation Short Fall and Market on close.

Risk Cloud

Creating Value By Modeling RISK.

Modeling RISK = Modeling Cash Flow.

We, having understood the Risk Parameters, at Stampede Modelled the High- End Calculation of Credit Risk, Operational Risk, Third Party Risk and Cash Flow Risk. Our Cloud Services are highly disciplined Automated Risk Management Systems, that insulate the investment process from inherent elements of risk, apart from providing the following in house audit functionalities.

- Using Trade Blotter functionality for audit tasks and risk management
- Benchmarks/Analytics to know current status of operations
- Pre-defined machine control limits that keep track of Net Open Positions (NOP)
- Limited Capital Allocation
- Centralized web interface including gross, net positions and real-time P&L
- Algorithm track quality control limits
- Applied Martingale and Anti-Martingale for position sizing strategies
- Pro-active Risk Management utilizing very tight stop losses

Research & Development

Digital Currencies:

At Stampede, we are true believers of BitCoin efficiency and its potential impact to the global economy. Unique ledger system and no double transaction spending makes BitCoin uniquely poised for alternative payment system across the global Internet.

Stampede currently manages pool mining in more than 10 digital currencies. Stampede, through Cloud Mining and Hash Power Management is helping some of the global BitCoin miners. Stampede cloud Hash power is more than 100 Tera Hashes and we are hoping to build a grid to cross 10 Peta Hashes processing power by end of 2014.

We are enhancing our research to build a Micro Payment & Processing System and Peer to Peer lending and borrowing system using BitCoin architecture.

IdleComputing.com (Beta)

Stampede owns Idlecomputing.com that is under Beta Testing by more than 7000 users from USA, Indonesia, Singapore, Vietnam etc., You can visit www.idlecomputing.com for complete details. Looking at the evolution of BitCoin, Stampede math team came up with novel idea to address ground challenges of High Frequency trading.

Grand challenges are fundamental problems in high end real time data applications with broader Matrix Calculation and computations whose solutions can be advanced by applying global distributed computer processing Power Grid.

Major constraints for HFT / Banks

- Limits of Physical Size (Floor Space) for more Physical servers required for computation power consumption for servers
- Cooling needed to house and run the Aggregated Equipment
- Widening Gap between Process and DRAM clock rates
- Excessive heat generated by dense packaging and high switching frequency
- Disparity between processor clock rates and immediate vicinity peripheral devices network performance
- The speed of processor is traded in favor of dense packaging in low power consumption per process.

Internal Control Systems and their Adequacy

The Company has adequate internal control systems supplemented by internal audits by professional firms commensurate with its size and nature of business to ensure to safeguard and protect the interests and assets of the Company.

Independent Auditors' Report to the Board of Directors of M/s Stampede Capital Limited on the Consolidated Financial Statements of Stampede Capital Limited and its Subsidiaries

Report on the Financial Statements

We have audited the accompanying financial statements of M/s. **STAMPEDE CAPITAL LIMITED** ("the Company"), which comprise the Consolidated Balance Sheet as at 31 March, 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal controls relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the consolidated Balance Sheet, of the state of affairs of the Company as at 31 March, 2014;
- (b) in the case of the consolidated Statement of Profit and Loss, of the loss of the Company for the year ended on that date; and

- (c) in the case of the consolidated Cash Flow Statement, of the cash flows of the Company for the year ended on that date.

Emphasis of Matter

- (a) Attention is drawn to Note No.25(a) of the Notes to the Accounts of the Company, relating to extensive damage due to the major fire accident which completely destroyed the physical vouchers upto 10.2.2014 and also affected the data processing equipment, including computers and servers and the steps taken by the Company for recovering the data from the Backup systems. We have conducted limited review of the accounts for the nine months period ending 31.12.2013. We have also conducted Audit for the year ending March 2014, based on data retrieved from the systems including scanned/ soft copies and physical records available.
- (b) Attention is also drawn to Note No.25(b) of the Notes to the Accounts with respect to balances under Sundry Debtors/Claims Recoverable/Loans & Advances/ Sundry Creditors/Other Liabilities which have not been confirmed by the certain parties.

**Notes to Consolidated financial statements for the year ended 31 March 2014**

(All amounts in Indian rupees, except share data and where otherwise stated)

Note 1: Significant Accounting Policies**Company Overview**

Stampede Capital Limited (Parent), together with its subsidiary (collectively, the Company or the group) Stampede Cloud Services Private Limited is providing Equity and Currency Broking services, Financial Cloud Services globally.

a) Basis of preparation of Consolidated Financial Statements

The financial statements have been prepared under historical cost convention on an accrual basis of accounting in accordance with generally accepted accounting principles in India, the Accounting Standards notified under section 211(3C) of the Companies Act, 1956 and in compliance with the listing agreement with Stock Exchanges in India.

b) Principles of Consolidation

The Consolidated financial statements have been prepared on the following basis:

- The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, revenues and expenses.
- Intra-group balances and intra-group transactions and resulting profits are eliminated in full.
- The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible in the same manner as the company's separate financial statements.

c) Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities on the date of financial statements and reported amounts of revenues and expenses for the year. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

d) Current-non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- i. it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is expected to be realised within 12 months after the reporting date; or
- iv. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Notes to Consolidated financial statements for the year ended 31 March 2014

(All amounts in Indian rupees, except share data and where otherwise stated)

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- i. it is expected to be settled in the company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is due to be settled within 12 months after the reporting date; or
- iv. the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

e) Fixed Assets and Depreciation

- i. Fixed assets are stated at their original cost less depreciation. Cost includes inward freight, duties, taxes, expenses incidental to acquisition and installation, excise duty and VAT wherever applicable.

- ii. Depreciation:

Depreciation on tangible assets is provided under Straight Line Method at the rates and in the manner specified in Schedule XIV of the Companies Act, 1956. Intangible assets are being amortised over a period of five years from the date of acquisition.

f) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments. Long Term Investments are carried at cost less diminution in value other than temporary determined separately for each individual investment. Current investments are carried at the lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investment.

f) Taxes on Income

- i. Tax expense comprises current year income tax and deferred income tax charges or credit for the year.
- ii. Current year income tax charge will be calculated based on assessable profits of the company determined in accordance with the provisions of Income Tax Act, 1961. It will also includes, income tax charge provided if any, for such disallowances made on completion of assessment proceedings pending appeals, as considered appropriate depending on the merits of each case.
- iii. Deferred income tax charge or credit pertaining to future tax consequences attributable to timing difference between the financial statement determination of income and their recognition for tax purposes will be recognised. The effect of a change in tax rates on deferred tax assets and liabilities is recognised in income using the tax rates and tax laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

**Notes to Consolidated financial statements for the year ended 31 March 2014**

(All amounts in Indian rupees, except share data and where otherwise stated)

iv. Minimum Alternate Tax (MAT) Credit entitlement:

MAT Credit entitlement represents amounts paid in a year under Section 115 JA of the Income Tax Act, 1961 (IT Act), in excess of the tax payable, computed on the basis of normal provisions of the IT Act.

Such excess amount can be carried forward for set off against future tax payments for ten succeeding years in accordance with the relevant provisions of the IT Act. Since such credit represents a resource controlled by the Company as a result of past events and there is evidence as at the reporting date the Company will pay normal income tax during the specified period, when such credit would be adjusted, the same has been disclosed as "MAT Credit entitlement, under "Short Term Loans and Advances" in balance sheet with a corresponding credit to the profit and loss account, as a separate line item.

Such assets are reviewed as at each balance sheet date and written down to reflect the amount that will not be available as a credit to be set off in future, based on the applicable taxation law then in force.

g) Earnings Per Share

- i. The basic earnings per share is calculated considering the weighted average number of equity shares outstanding during the year.
- ii. The diluted earnings per share is calculated considering the effects of potential equity shares on net profits after tax for the year and weighted average number of equity shares outstanding during the year.

h) Revenue Recognition

- i. Revenue from broking activities is accounted on the trade date of transaction.
- ii. Gains / loss, on investments in options and futures, both equity stock and index, being the difference between the contracted rate and the rate on the settlement or sale date, whichever is earlier is recognized in the Profit and Loss Account on settlement / sale.
- iii. Revenue from services consist primarily of revenue earned from services performed on a 'time and material' basis. The related revenue is recognised as and when the services are rendered and when there is no significant uncertainty in realizing the same.
- iv. Interest Income is recognized on accrual basis. Dividend income is recognized when the right to receive payment is established

i) Leases

Leases of assets under which all risks and rewards of ownership are affectively retained by lesser are classified as operating leases. Lease payments under operating leases are recognised as an expense on a straight line basis over the period of lease.

j) Provisions, Contingent Liabilities and Contingent Assets

Provisions, involving substantial degree of estimation in measurement, are recognised when there is present obligation as a result of past events and if it is probable that there will be an outflow of resources.

Notes to Consolidated financial statements for the year ended 31 March 2014

(All amounts in Indian rupees, except share data and where otherwise stated)

Contingent liabilities, which are possible or present obligations that may be probably will not require outflow of resources, are not recognised but are disclosed in the notes to the financial statements. Contingent Assets are neither recognised nor disclosed in financial statements.

k) Cash and Cash equivalents

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible into cash with original maturities of three months or less. Cash and cash equivalents consist principally of cash on deposits with banks.

l) Cash flow statement

Cash flows are reported using the indirect method, whereby profit or loss before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

m) Impairment of Assets

The Company assesses at each balance sheet date whether there is any indication that any assets forming part of its cash generating units may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the reassessed recoverable amount subject to a maximum of depreciated historical cost.

n) Retirement benefits

Gratuity and long term compensated absence, which are defined benefits plan, are determined by independent actuary at the balance sheet date are charged to the statement of profit and loss. All actuarial gains and losses arising during the year are recognized in the statement of profit and loss.

Contributions payable to the recognized provident fund which is defined contribution schemes, is charged to the statement of profit and loss.

INDEPENDENT AUDITORS' REPORT

To The Members of M/s. Stampede Capital Limited Report on the Financial Statements

We have audited the accompanying financial statements of M/s. **STAMPEDE CAPITAL LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2014, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards notified under the Companies Act, 1956 ("the Act"). (Which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of General Circular 15/2013 dated 13 September 2013 of the Ministry of Corporate Affairs) This responsibility includes the design, implementation and maintenance of internal controls relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at 31 March, 2014;
- (b) in the case of the Statement of Profit and Loss, of the Profit of the Company for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows of the Company for the year ended on that date.

**Emphasis of Matter**

- (a) Attention is drawn to Note No.24(a) of the Notes to the Accounts of the Company, relating to extensive damage due to the major fire accident which completely destroyed the physical vouchers upto 10.2.2014 and also affected the data processing equipment, including computers and servers and the steps taken by the Company for recovering the data from the Backup systems. We have conducted limited review of the accounts for the nine months period ending 31.12.2013. We have also conducted Audit for the year ending March 2014, based on data retrieved from the systems including scanned/ soft copies and physical records available.
- (b) Attention is also drawn to Note No.24(b) of the Notes to the Accounts with respect to balances under Sundry Debtors/Claims Recoverable/Loans & Advances/ Sundry Creditors/Other Liabilities which have not been confirmed by the certain parties.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government in terms of Section 227(4A) of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by Section 227(3) of the Act, we report that:
 - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
 - (c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement comply with the Accounting Standards notified under the Act. (Which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of General Circular 15/2013 dated 13 September 2013 of the Ministry of Corporate Affairs).
 - (e) On the basis of the written representations received from the directors as on 31 March, 2014 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2014 from being appointed as a director in terms of Section 274(1) (g) of the Act.
 - (f) Since the Central Government has not issued any notification as the rate at which the cess is to be paid under section 441A of the Companies Act, 1956 nor has it issued any Rules under the said section, prescribing the manner in which such cess is to be paid, no cess is due and payable by the Company.

ANNEXURE REFERRED TO IN PARAGRAPH 1 OF AUDIT REPORT OF EVEN DATE ON THE ACCOUNTS OF **M/s. STAMPEDE CAPITAL LIMITED** ('THE COMPANY') FOR THE YEAR ENDED 31 ST MARCH, 2014

1. (a) The Company has maintained softcopies of records showing full particulars including quantitative details and situation of fixed assets.
(b) As per the information and explanations given to us, the Management has carried out physical verification of Fixed Assets at the year end, which is considered reasonable and as informed to us, no material discrepancies were noticed on such verification.
(c) During the year, there had been an instance of major fire accident which completely destroyed the physical Data Processing Equipment, including Computers & Servers. However, the Company could retrieve the lost data from the Back up Systems and, after the year end and before the date of Audit Report, had replenished the physical systems and accordingly, we are of the opinion that the impairment during the financial year will not affect the Going Concern status of the Company due to the steps taken by the Company.
2. As per the information and explanation given to us, as the Company's business does not involve maintenance of inventories viz. Finished, Stores, Spares Parts, Goods in Process and Raw Materials, the provisions of clause 4(ii)(a), 4(ii)(b), and 4(ii)(c) of the Order are not applicable to the Company for the current year.
3. According to the information and explanations furnished to us, the company has granted interest free unsecured loan to two parties covered in the register maintained under section 301 of the Act, the balance outstanding as at the year end was Rs. 124.51 lakhs and the maximum balance outstanding during the year was Rs. 127.18 lakhs. The terms and conditions of this advance, being temporary in nature, is not prejudicial to the interest of the company.
4. In our opinion and according to the information and explanations given to us, there are adequate internal control systems commensurate with the size of the Company and nature of its Business with regard to purchase of fixed assets and services rendered. During the course of our audit, we have not come across any major weakness in internal control system.
5. a According to the information and explanations given to us , we are of the opinion that the particulars of contracts or arrangements that need to be entered into the register maintained under section 301 of the Companies Act, 1956 have been so entered.
b. In our opinion and according to the information and explanations given to us, these transactions were made at prices which are reasonable having regard to the prevailing market prices at the relevant time.
6. As the Company has not accepted any deposits from Public covered under section 58A of the Act, the provisions of Clause 4(vi) of the Order are not applicable to the Company for the current year.
7. In our opinion and according to information and explanations given to us, the Company has an internal audit system commensurate with its size and nature of its business.
8. As the provisions of maintenance of cost records are not applicable to the Company, the provisions of Clause 4(viii) are not applicable to the Company.
9. a. As per the records and according to information and explanations given to us, the company is not liable for depositing statutory dues of Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Sales Tax, Wealth Tax, Customs Duty, Excise Duty, Cess with appropriate authorities during the year and **the Company had delayed in depositing the dues of income tax (both regular tax as well as in the nature of TDS)** and other material statutory dues applicable to the Company and in respect of these dues, there are no outstanding dues as on 31.3.2014 which are outstanding for a period of more than six months from the date they became payable .

- b. As per the records and according to information and explanations given to us, there are no dues of Income Tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty and Cess, which have not been deposited on account of any dispute as on 31.3.2014.
10. The Company does not have any accumulated losses. Further, the Company had not incurred any Cash loss in the current year as well as in the immediately preceding financial year.
11. In our opinion and according to the information and explanation furnished, the Company did not avail any loans from Banks or Financial Institutions during the year under review. Accordingly, Clause 4 (xi) of the said Order are not applicable for the current year.
12. According to the information furnished to us, as the Company has not granted any loans or advances on the basis of security by way of pledge of shares, debentures and other securities to any body during the year, the provisions of clause 4(xii) of the order are not applicable to company for the current period under review.
13. In our opinion, as the Company is not a chit fund or a nidhi or mutual benefit fund or society, the provisions of Clause 4 (xiii) of the Order are not applicable to the Company for the current year.
14. According to the information and explanations given to us, the Company is dealing or trading in shares, securities, debentures and other investments and had maintained proper records in respect of transactions and contracts with timely entries made therein; the shares, securities, debentures and other investments are held by the Company in its own name.
15. As per the information and explanations given to us, as the Company has not given any guarantees for loans taken by others from banks or financial institutions, the provisions of Clause 4(xv) of the Order are not applicable to the Company for the current year.
16. According to records of the Company, as the Company has not raised any terms loans, and accordingly, Clause 4 (xvi) of the said Order are not applicable for the year under review.
17. According to records and on an overall examination of the balance sheet of the company, the funds raised on short term basis have not been used for long term investment.
18. As per the information and explanations given to us, the company has not made any preferential allotment of shares to parties and companies covered in the register maintained under section 301 of the Act.
19. As the Company has not issued any debentures during the year, which requires creation of security or charge, the provisions of Clause 4(xix) of the Order are not applicable to the Company for the current year.
20. As the Company has not made any public issue during the year, the provisions of Clause 4(xx) of the Order are not applicable to the Company for the current year.
21. During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and as per the representation given by the Company and relied on by us, we have neither come across any instance of material fraud on or by the Company, noticed or reported during the year, nor have we been informed of such cases by the management.

Note 1: Significant Accounting Policies**Company Overview**

Stampede Capital Limited is engaged in the business of Equity and Currency broking and trading activities. The Company is registered as a "Stock Broker" with the Securities and Exchange Board of India ("SEBI"). The company is having Equity Trading and Clearing membership and F&O Trading Membership with National Stock Exchange of India ("NSE") and also having Trading Membership with United Stock Exchange ("USE"), and MCX Stock Exchange ("MCX SX").

a) Basis of Preparation of Financial Statements

The financial statements have been prepared under historical cost convention on an accrual basis of accounting in accordance with generally accepted accounting principles in India, the Accounting Standards notified under section 211(3C) of the Companies Act, 1956 and in compliance with the listing agreement with Stock Exchanges in India.

b) Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities on the date of financial statements and reported amounts of revenues and expenses for the year. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

c) Current-non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- i. it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is expected to be realised within 12 months after the reporting date; or
- iv. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- i. it is expected to be settled in the company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is due to be settled within 12 months after the reporting date; or
- iv. the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Notes to financial statements for the year ended 31 March 2014

(All amounts in Indian rupees, except share data and where otherwise stated)

d) Fixed Assets and Depreciation

- i. Fixed assets are stated at their original cost less depreciation. Cost includes inward freight, duties, taxes, expenses incidental to acquisition and installation, excise duty and VAT wherever applicable.
- ii. Depreciation:
Depreciation on tangible assets is provided under Straight Line Method at the rates and in the manner specified in Schedule XIV of the Companies Act, 1956. Intangible assets are being amortised over a period of five years from the date of acquisition.

e) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments. Long Term Investments are carried at cost less diminution in value other than temporary determined separately for each individual investment. Current investments are carried at the lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investment.

f) Taxes on Income

- i. Tax expense comprises current year income tax and deferred income tax charges or credit for the year.
- ii. Current year income tax charge will be calculated based on assessable profits of the company determined in accordance with the provisions of Income Tax Act, 1961. It will also includes, income tax charge provided if any, for such disallowances made on completion of assessment proceedings pending appeals, as considered appropriate depending on the merits of each case.
- iii. Deferred income tax charge or credit pertaining to future tax consequences attributable to timing difference between the financial statement determination of income and their recognition for tax purposes will be recognised. The effect of a change in tax rates on deferred tax assets and liabilities is recognised in income using the tax rates and tax laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.
- iv. Minimum Alternate Tax (MAT) Credit entitlement:

MAT Credit entitlement represents amounts paid in a year under Section 115 JA of the Income Tax Act, 1961 (IT Act), in excess of the tax payable, computed on the basis of normal provisions of the IT Act.

Such excess amount can be carried forward for set off against future tax payments for ten succeeding years in accordance with the relevant provisions of the IT Act. Since such credit represents a resource controlled by the Company as a result of past events and there is evidence as at the reporting date the Company will pay normal income tax during the specified period, when such credit would be adjusted, the same has been disclosed as "MAT Credit entitlement, under "Short Term Loans and Advances" in balance sheet with a corresponding credit to the profit and loss account, as a separate line item.

Such assets are reviewed as at each balance sheet date and written down to reflect the amount that will not be available as a credit to be set off in future, based on the applicable taxation law then in force.

g) Earnings Per Share

- i. The basic earnings per share is calculated considering the weighted average number of equity shares outstanding during the year.
- ii. The diluted earnings per share is calculated considering the effects of potential equity shares on net profits after tax for the year and weighted average number of equity shares outstanding during the year.

**Notes to financial statements for the year ended 31 March 2014**

(All amounts in Indian rupees, except share data and where otherwise stated)

h) Revenue Recognition

- i. Revenue from broking activities is accounted on the trade date of transaction.
- ii. Trading of securities and currency are accounted on the trade date of transaction.
- iii. Interest Income is recognized on accrual basis. Dividend income is recognized when the right to receive payment is established.

i) Leases

Leases of assets under which all risks and rewards of ownership are affectively retained by lesser are classified as operating leases. Lease payments under operating leases are recognised as an expense on a straight line basis over the period of lease.

j) Provisions, Contingent Liabilities and Contingent Assets

Provisions, involving substantial degree of estimation in measurement, are recognised when there is present obligation as a result of past events and if it is probable that there will be an outflow of resources. Contingent liabilities, which are possible or present obligations that may be probably will not require outflow of resources, are not recognised but are disclosed in the notes to the financial statements. Contingent Assets are neither recognised nor disclosed in financial statements.

k) Cash and Cash equivalents

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible into cash with original maturities of three months or less. Cash and cash equivalents consist principally of cash on deposits with banks.

l) Cash flow statement

Cash flows are reported using the indirect method, whereby profit or loss before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

m) Impairment of Assets

The Company assesses at each balance sheet date whether there is any indication that any assets forming part of its cash generating units may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the reassessed recoverable amount subject to a maximum of depreciated historical cost.

n) Retirement benefits

Gratuity and long term compensated absence, which are defined benefits plan, are determined by independent actuary at the balance sheet date are charged to the statement of profit and loss. All actuarial gains and losses arising during the year are recognized in the statement of profit and loss.

Contributions payable to the recognized provident fund which is defined contribution schemes, is charged to the statement of profit and loss.

Note 22 Employee Stock Option Plan

The Company has instituted the following employee stock option plan for all eligible employees, in pursuance to the respective special resolution approved by the shareholders. All the plan options shall be administered by the compensation committee, which shall determine the employees eligible for receiving options, the number of options to be granted, the exercise price, the vesting period and the exercise period. The vesting period is determined for the options issued on the date of the grant.

Plan	Shareholder's special resolution date	No. of Options Granted	Vesting Period	Vesting Pattern
2011 ESOP Plan	29th September, 2011	1,492,400	4 Years	25% at the end of first year 25% at the end of second year 25% at the end of third year 25% at the end of fourth year

The exercise price of the options granted under the ESOP Plan is defined as the closing market price of the underlying equity share, preceding the date of grant of options on the stock exchange having the highest trading volume of such shares.

In the case of termination of the employment, all non-vested options would stand cancelled. Options that have vested but have not been exercised can be exercised within the time prescribed under each option agreement approved by the compensation committee, which shall not be beyond the initial exercise period, failing which they would stand cancelled.

A summary of activity under the above employee stock option plan for the years ended 31 March, 2014 and 31 March, 2013 are given below:
